## THE HOUSE

Here is where Zancan's true masterpieces are born, in the Vicenza hills, in a modern structure built around an ancient olive tree that connects Zancan's atelier to its workshops, where all jewelry pieces are crafted by expert artisans.

The company embraced a renewed momentum in 2001 after its founder, Robertino Zancan, made the decision to channel his passion for men's jewelry into original collections, and to inject life into unique designs that bring out the wearer's personality.
